

# Two Days Workshop on “Fundamentals of Intellectual Property” (FI P - 2021)

18<sup>th</sup> and 19<sup>th</sup> February, 2021

Organized by

NITK-STEP  
&

National Institute of Technology Karnataka,  
Surathkal,  
Mangalore - 575 025.

## ABOUT NITK-STEP

NITK's Science & Technology Entrepreneurship Park (NITK-STEP) was established in 1994, for supporting and promoting student start-up activities. It provides financial support for students' startups, with several success stories in the areas of imaging technology, Network Cloud convergence, Multimedia, low cost/long lasting alternatives to conventional lead batteries, remote control power tillers, healthcare products etc. NITK Startup Cell and E-Cell also support entrepreneurial activities of students and faculty.

## ABOUT NITK-STEP

The National Institute of Technology Karnataka (NITK), Surathkal, formerly known as KREC was laid on 6 August 1960 and it has established in providing quality education in Engineering Sciences and Management. National Institute of Technology Karnataka, Surathkal has for over five decades imparted high quality technical education and established a niche for itself among the top technological universities of the country. From years, NITK is imparting quality education to meet the needs of profession and society, and achieve excellence in teaching-learning and research.

## ABOUT THE COURSE

Intellectual Property plays a key role in gaining a foothold on the ladder of success in today's innovation-driven economy. Researchers and entrepreneurs alike can obtain significant benefits from a deeper understanding of its broad

spectrum and intricacies. It is also important for engineers, scientists, authors and other creators working on projects to appreciate what is involved when establishing ownership, rights and interests in valuable original material. To promote IPR awareness and to encourage innovation across various disciplines, a Workshop on Intellectual Property Rights is planned under the auspices of the NITK STEP. The proposed workshop focuses on best practices in IPR: what is essential, what is advisable, and what are the pitfalls to be avoided. Participants will learn how to deal most effectively with the material they work with: to identify, verify and protect their IPR, to commercially exploit and disseminate it, and also how to handle third party material legitimately.

## SCOPE OF THE COURSE

The following topics will be covered:

- Intellectual Property Rights in Academic Research
- Identification of Patentability of Inventions
- Drafting and Patent filing procedure and prior art search
- IP Commercialization and licensing
- Strategic use of patents for Start-up growth and
- Government Initiatives
- Cases related to Patent infringement
